A Screen effect on Paneth cells vs. in-silico score in the cycling stem pools
one point per compound; KPT-330 (XPO1) in blue; positive repSSMD = more Paneth cells
stem II
stem III
DCC-2036 (Rebastinib)
Bosutinib (SKI-606)
Veliparib (ABT-888)
KPT-330
Trospium chloride
rho = +0.08 (p = 0.55, n = 54)
rho = +0.09 (p = 0.51, n = 63)
Screen: best repSSMD (LYZ NS)
Target's residual log10 score in that identity
B Agreement by identity
n = 54-75 compounds per identity
enterocyte
early enterocyte
enteroendocrine
Paneth
early Paneth
early secretory

Spearman: screen score vs. residual score
n.s.
C The 20 strongest screen hits that map to a scored target
ordered by screen score, strongest at the top
DCC-2036 (Rebastinib)
Bosutinib (SKI-606)
Trospium chloride
Veliparib (ABT-888)
LY2157299
Ridaforolimus (Deforolimus, MK-8669)
